RETRACTION NOTICE

This article has been retracted at the request of the Editor-in-Chief and Authors. Please see the Elsevier Policy on Article Withdrawal (http://www.elsevier.com/locate/withdrawalpolicy).

Reason: This article has been retracted because Figure 1C appears to be a digitally altered version of Figure 1B. In addition, the lead author asserts that the signature on the submission form for the manuscript is not hers. The lead author also asserts that the published figures were not part of the investigation that is the subject of the report.

From the Dermatology Department, Faculty of Medicine, Zagazig University.
